# What is DermaZinc®?

From mild to more severe chronic skin conditions, DermaZinc® is the most effective, affordable, and convenient product on the market. Recommended by physicians, DermaZinc® has provided proven relief to those who suffer from conditions such as psoriasis, eczema, and various forms of dermatitis.

These conditions are not just physically uncomfortable, but emotionally stressful. All skin is different and with a selection of original products to choose from, you choose what works best for your skin.

## Helps with Chronic Skin Conditions

### Dermatitis

DermaZinc® has been recommended by physicians to treat various forms of Dermatitis symptoms ranging from mild to severe conditions.

### Eczema

Patients who suffer from mild to severe cases of eczema have reported benefits when using DermaZinc® products.

### Dandruff

DermaZinc® has been used for years to treat conditions of the scalp including flaking and itching associated with Dandruff.

### Other Skin Conditions

DermaZinc® works really well in helping with other - more general - skin conditions including rashes, poison ivy, bug bites, ringworm, and skin fungus.

## Results You Want Everyone to See

Our products provide relief to those who suffer from a variety of chronic skin conditions. DermaZinc® is an over-the-counter product and can be purchased directly on our website. For severe cases, DermaZinc® can be made into a prescription through compounding. This can be done through a pharmacy that offers compounding services. For more information, please visit our website.

\*Before and After photos are not altered. These results were achieved using prescription strength DermaZinc®. For severe cases, consult a physician about compounding DermaZinc®
