

Step Towards Supporting Healthy Joint Function.

Dona® contains crystalline glucosamine sulfate, a naturally occurring substance found in cartilage to cushion joints. Dona® helps in maintaining cartilage health so that you can actively participate in daily activities such as walking, climbing stairs, etc.

Dona® has been proven effective and safe in major clinical trials. It may promote cartilage health, lubricate joints, and support joint mobility and flexibility. Dona® can be taken with water or juice, with or without food and even in the morning or at night.

More About Dona®

Main Ingredients

Each Serving (2 Caplets) Contains:

Sodium	150 mg
Glucosamine Sulfate Sodium Chloride	1500 mg

Recommended Doses

Take two caplets together daily with water or juice.

Due to its mechanism of action, it may take 1-2 weeks, or possibly longer, to notice any effects. Optimal effects on joint health have been observed after 12 weeks of daily administration. *

Cautions

Store in a cool, dry place. Keep out of the reach of children. As with any nutritional product, please consult your physician before taking. If you are pregnant or breast-feeding, ask your Doctor before taking. Use only as directed. Results May Vary. Glucosamine is derived from shellfish; if you are allergic to shellfish, please consult your doctor before taking.
