What is Cleansing?

The colon (also known as the large intestine) is an important part of the body. It is vital to proper digestion, especially in moving waste out in a timely manner.*

The modern diet is not very colon friendly. If you're like most people, purchasing and eating food often happens without thought about where the food comes from and how it's made. As many as 95% of us fall short of the recommended daily intake of fiber.*

Dietary fiber plays an important role in keeping the colon clean. If dietary fiber is not provided adequately by the daily diet, a sound recourse is to use a good cleansing program that has a fiber component as its foundation.*

Cleansing Health Benefits

Cleanses such as DrNatura, can exert strong health-preserving effects, such as supporting a healthy heart, optimizing immune function, as well as encouraging a healthy weight.*

DrNatura® 30 Day Program

A thorough, fiber-based colon cleanse such as DrNatura's Colonix® Program is an effective way to help encourage the body's natural cleansing process. For more than a decade, DrNatura's best-selling product has been the Colonix® Cleansing Kit which is a 30 day program that includes 3 products:

- Colonix® Intestinal Cleanser
- Paranil®
- KleriTea®

- Supports healthy colon and liver functions*
- Promotes regularity & digestive health*
- 30-day / 60-day / 90-day routines available*
- Contains powerful antioxidants, antibacterial and antifungal herbs*
- Helps relieve poor digestion including gas, bloating & occasional constipation

Full Line of Products

Colonix® Intestinal Cleanser

A daily fiber that contains a proprietary blend of herbs and dietary fiber.

Paranil® Liver Support Complex

An easy-to-swallow, vegetarian capsule, containing herbs, promoting a healthy liver.*

KleriTea® Herbal Tea

A bedtime tea, containing 12 medicinal herbs that gently encourage the bowels while assisting in the cleansing of the colon, liver, and blood.

UniFiber® Fiber Supplement

Insoluble fiber that adds bulk to your stool which helps food pass more quickly through the stomach and intestines.
