

24-Hour Joint Support.

InvigoFlex® AMPM is a unique day & night joint supplement that not only contains Glucosamine Sulfate and Chondroitin Sulfate, but also other natural ingredients. Boswellia Serrata and Curcumin (Turmeric) are offered in combination with Glucosamine Sulfate and Chondroitin Sulfate to help with overall joint health.*

However, InvigoFlex® AMPM is not your typical Glucosamine and Chondroitin product. While others combine both Glucosamine and Chondroitin within the same formulation, we developed a schedule that allows both ingredients to be taken together - but not combined - keeping both ingredients at full bioavailability.

Benefits

- Glucosamine Sulfate (AM) + Chondroitin Sulfate (PM).
- Includes Boswellia Serrata and Curcumin (Turmeric).*
- AM bottle and PM bottle for 24 hours of joint support.*
- Improved bioavailability by separating GS and CS ingredients.*
- Advanced support for healthy joint function and cartilage health.*
- Inflammation support.*

Cautions

Store in a cool, dry place. Keep out of the reach of children. As with any nutritional product, please consult your physician before taking. If you are pregnant or breastfeeding ask your doctor before taking. Use only as directed. This product is not a sleep aid.

Recommended Doses

By separating the two ingredients into four (4) caplets a day: two (2) GS caplets in the morning and two (2) CS caplets in the evening, each ingredient is optimized to give you its individual peak effectiveness. InvigoFlex® AMPM is especially geared to provide you with 24-hour joint support by giving you the right ingredients at the right time.

Scan to Learn More About InvigoFlex®
