

Maximum Strength Glucosamine Sulfate, the CLASSIC Formulation.

With InvigoFlex® D Powder, we set out to create a Glucosamine product that uses the right Glucosamine Sulfate, with the right dosage and right stabilization. We call this the CLASSIC formulation as it provides the correct dosage (1,500 mg) and overall stabilization (sodium chloride) shown to be effective. InvigoFlex® D Powder is used to help support joint health and maintain and promote healthy cartilage.

Benefits

- Classic Glucosamine Sulfate.*
- Maximum Strength Sodium Chloride Formulation.*
- Offered in a Powder or Caplet form.
- Supports healthy joint function and cartilage.*
- Promotes good health of body joints, especially in the knees.*

Cautions

Store in a cool, dry place. Keep out of the reach of children. As with any nutritional product, please consult your physician before taking. If you are pregnant or breastfeeding ask your doctor before taking. Use only as directed. InvigoFlex® D Powder is derived from shellfish; if you are allergic to shellfish, please consult your doctor before taking.
