

Empower Your Heart, Energize Your Cells: Experience CoQ10's Vital Support

Experience the vital support of PreDia® CoQ10, a key nutrient for cardiovascular health and energy production. CoQ10, also known as ubiquinone, is naturally found in the mitochondria of every cell and is especially concentrated in heart tissue. It plays an essential role in supporting the production of cellular energy, making it a cornerstone of overall health and vitality.*

Our softgels are formulated with added oil to enhance absorption, addressing CoQ10's fat-soluble nature. Unlike products with artificial emulsifiers, our clean formula may exhibit natural separation, which does not affect potency or effectiveness.

Features

- **Heart Health:** CoQ10 is naturally concentrated in heart tissue, supporting cardiovascular wellness and energy.*
- **Enhanced Absorption:** The inclusion of oil in our softgels optimizes CoQ10's fat-soluble properties for better uptake.*
- **Clean and Transparent Formula:** Contains no artificial emulsifiers, ensuring a natural and effective product.

Benefits

- Supports Cellular Energy Production.*
- Promotes Cardiovascular Health.*
- Optimized for Absorption.*
- Made with High-Quality Ingredients.*
