

Liver Hepato-Protect

Support Your Liver for Optimal Health: Liver Hepato-Protect, Your Comprehensive Liver Detox Support.

The liver plays a vital role in detoxification, digestion, and energy storage. It helps cleanse your blood, produce essential bile for digestion, and store energy in the form of glycogen. Taking care of your liver is key to maintaining overall health and well-being.

Liver Hepato-Protect is a unique, advanced formulation designed to provide comprehensive liver support. This formula features well-researched ingredients known for their detoxifying support properties. Milk Thistle (80% Silymarin) supports liver cells, while Artichoke, Dandelion, and Black Radish promote healthy bile production and efficient detoxification.

Additionally, Alpha Lipoic Acid, L-Glutathione, and Selenium work synergistically to help protect liver health. Curcumin (95%) further enhances liver support, and Fennel Seed aids in helping to support healthy removal of toxins stored in fatty liver tissue. Together, these ingredients form a powerful blend to help maintain liver function, support metabolism, and promote overall well-being.

Features

- Milk Thistle (80% Silymarin) - Support liver cells.*
- Artichoke, Dandelion and Black Radish - Promote live detoxification.*
- Alpha Lipoic Acid + L-Glutathione + Selenium - Aid in healthy toxin removal.*
