

Serra-Plus Forte

Inflammation Management Support: Harness the Power of Enzymes.

Everyday activities, environmental factors, and lifestyle choices can contribute to imbalances in the body. Maintaining a well-balanced system is essential for overall wellness, and key nutrients play a vital role in supporting this balance. The body naturally produces enzymes that help regulate biological processes, including the breakdown of proteins and the maintenance of healthy tissues. However, factors such as aging and diet may impact enzyme levels, making supplementation a valuable option.

Serra-Plus Forte is a scientifically formulated blend of proteolytic enzymes and herbal extracts designed to promote a healthy inflammatory response and overall well-being. By incorporating key ingredients such as Serrapeptase, Boswellia, and Curcumin, this advanced formula works synergistically to support the body's natural ability to maintain balance and recovery.

With its delayed-release vegetarian capsules, Serra-Plus Forte ensures optimal bioavailability, making it an essential addition to any wellness routine.

Features

- Fast-acting, unique synergistic formulation.*
- Stomach acid-resistant vegetarian capsules.*
- Maximum Serrapeptase (120,000 SU).*
- Boswellia serrata extract with 65% Boswellic acids.*
- High-quality Curcumin extract standardized to 95% Curcuminoids.*
- Stem Bromelain, Papain, Ginger, and Piperine for enhanced absorption.*

Benefits

- Helps support the body's own response to inflammation management.*
- Aids in the breakdown of non-living tissue and fibrin.*
- Encourages balanced immune function.*
- Promotes optimal nutrient absorption for overall wellness.*
- Provides botanical synergy for joint and tissue health.*
