

Stemulin®

Embrace Youthful Wellness - Fortifying Cell Protection and Antioxidant Defense!

In our quest for longevity, we understand the significance of slowing down the effects of aging. Stemulin® stands as a dedicated ally, aiming to counteract oxidative stress - a known contributor to aging. The ability to reduce oxidative stress within our bodies has demonstrated a direct correlation to the aging process.

Stemulin® emerges as an extraordinary antioxidant blend meticulously crafted to bolster your body's natural protective and self-help processes. Fucoidan, a sulfated polysaccharide, increases the expression of CXCR4 on stem cells, while approximately 45% of AFA's lipids consist of vital fatty acids, fostering cellular health.

Stemulin® is more than just an age defying blend - it's a specialized orthomolecular combination of antioxidants and functional nutraceuticals. It shields your cells against oxidative damage caused by free radicals, aiding in correcting such damage, thereby mitigating the visible effects of aging induced by oxidative stress.

Features

- 100% vegan non-GMO formula.*
- Unique & orthomolecular, with AFA (blue-green algae).*
- Certain antioxidants in our formulation are also important for protecting the immune system and the body's capacity to self-help.*

Benefits

- Provides overall cell protection.*
- Assists in correcting free radical cell damage.*
- Immune system protection.*
